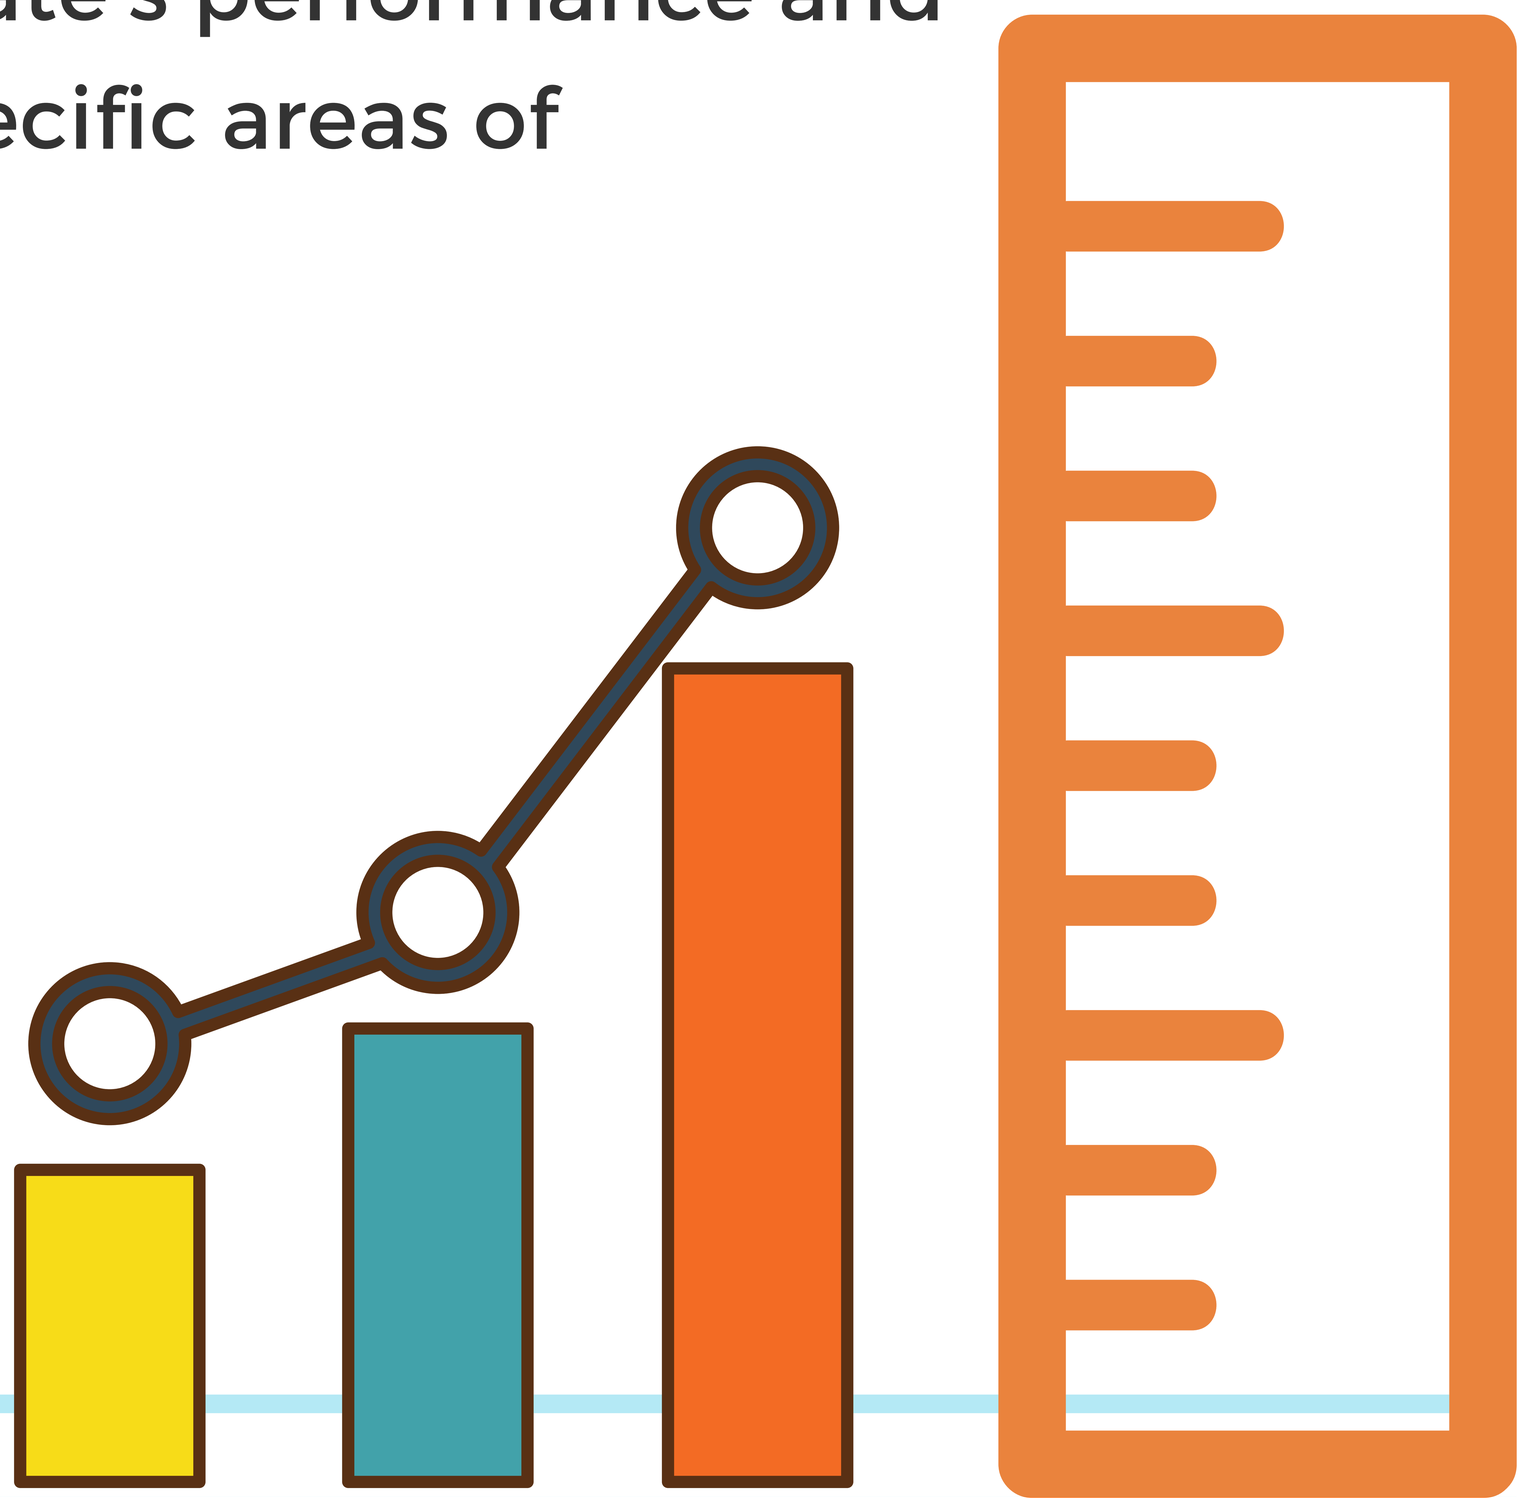
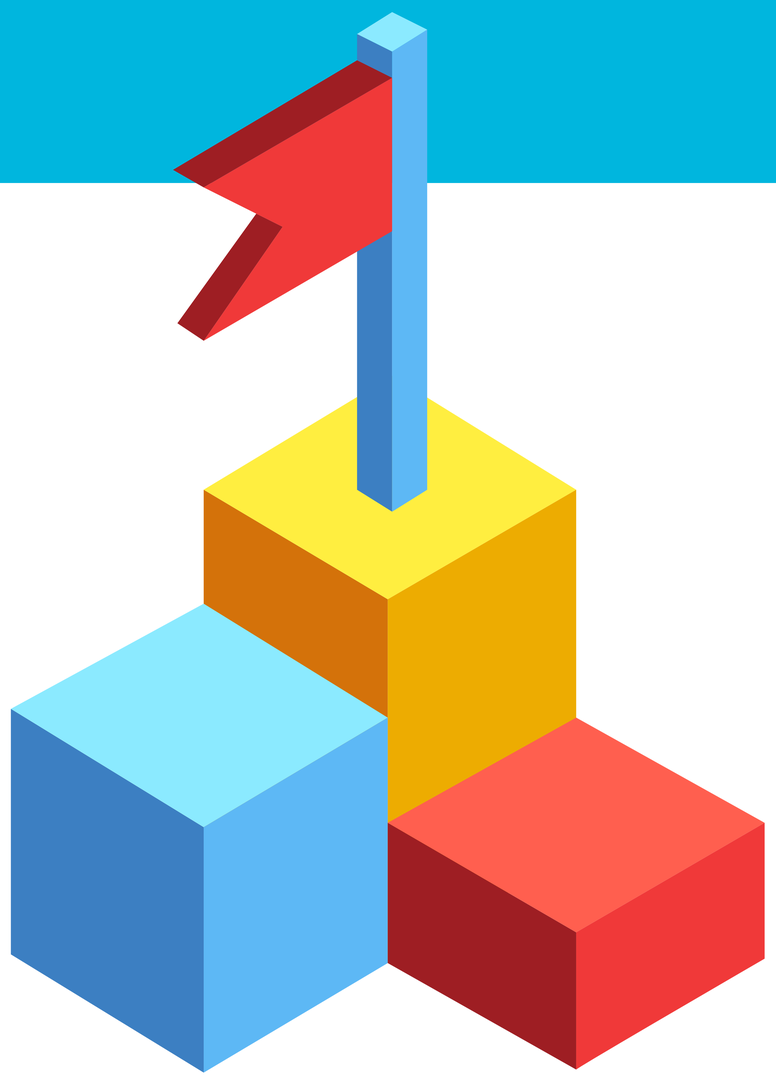
WHAT'S IN THE NEWS?

NITI Aayog released the second edition of "Healthy States, Progressive India" report.

The report was developed by NITI Aayog with technical assistance from the World Bank.

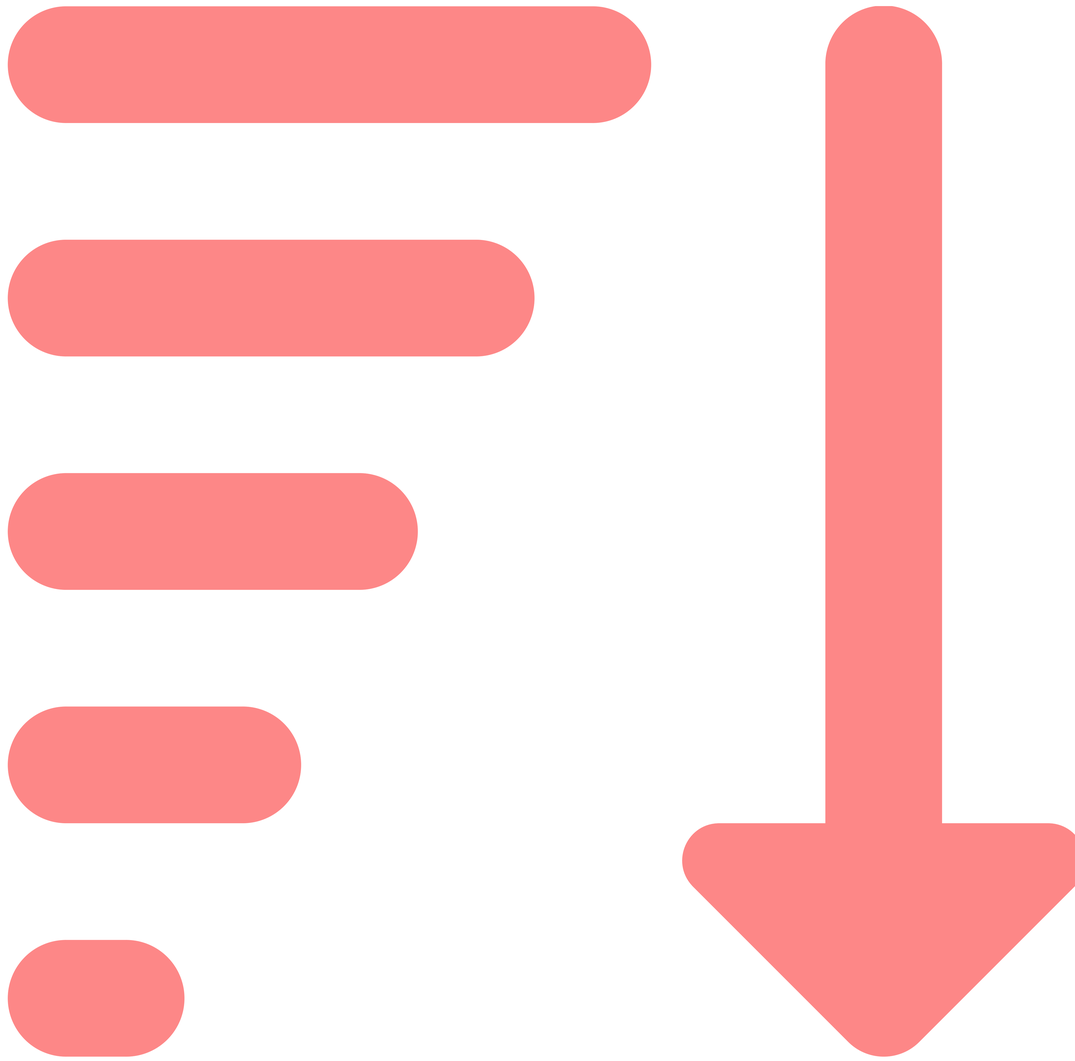
The objective of the report was to measure the annual performance of States and Union Territories (UTs), and rank States on the basis of incremental change, while also providing an overall status of State's performance and helping to identify specific areas of improvement.





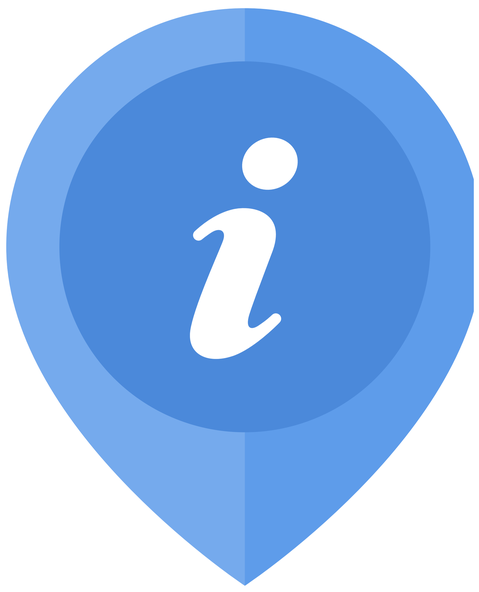
HOW ARE THEY RANKED?

States and UTs have been ranked on a composite Health Index in three categories -Larger States, Smaller States and UTs, to ensure comparison among similar entities.



The Index is a weighted composite Index based on indicators in three domains:

Health Outcomes;



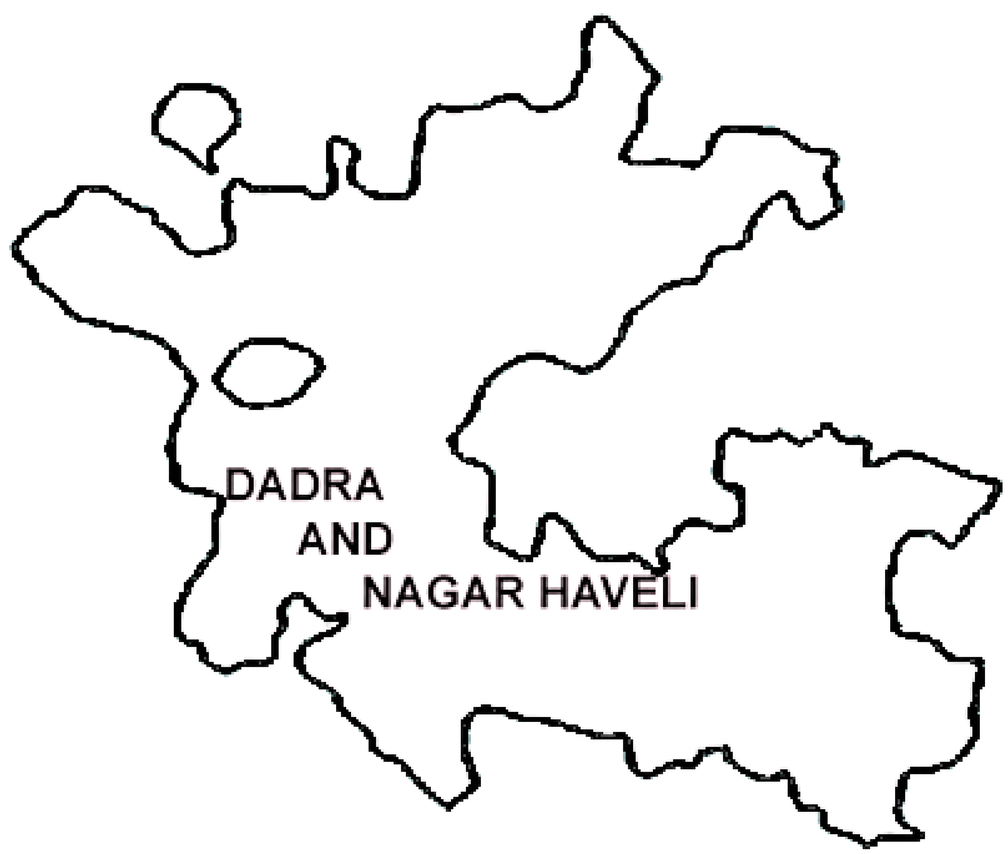
Governance and Information;

and Key Inputs/Processes

HIGHLIGHTS OF THE REPORT:

Among Larger States: **Kerala, Andhra Pradesh & Maharashtra** ranked on top in terms of overall performance. Haryana, Rajasthan and Jharkhand are the top three ranking States in terms of annual incremental performance.

Among Smaller States: **Mizoram ranked first** followed by Manipur on overall performance, while Tripura followed by Manipur were the top ranked States in terms of annual incremental performance.



Among UTs: Chandigarh and Dadra and Nagar Haveli were ranked on top in terms of overall performance as well as annual incremental performance.
