IAS ACADEMY BY IAS OFFICERS

## WHAT'S IN THE NEWS?

Indian Army has developed a simple and secure messaging application named the "Secure Application for Internet (SAI). This initiative by the Indian Army can be seen as a part of the 'Atmanirbhar Bharat Abhiyan.

## ABOUT SAI

Secure Application for the Internet (SAI) will support an end-to-end secure voice, text and video calling services for Android platforms over the internet.

The model of SAI is similar to commercially available messaging applications like WhatsApp, Telegram, SAMVAD and GIMS and utilises end-to-end encryption messaging protocol.

## ABOUT SAI

SAI scores over on security features with local in-house servers and coding which can be tweaked as per requirements.

The application has been vetted by CERT-in empanelled auditor and Army Cyber Group.

**CERT-IN**

**certin**

Handling Computer Security Incidents

CERT-In is a statutory organisation of the Ministry of Electronics and Information Technology established in 2004.

# CERT-IN

SAI scores over on security features with local in-house servers and coding which can be tweaked as per requirements.

It is the nodal agency to deal with cyber security threats and strengthens security-related defence of the Indian Internet domain.
